

UrbanShieldMH Extended

The UrbanShieldMH Extended provides enhanced upper torso protection. The armor flexes towards its center when assuming shooting postures. Its strike face of imbricated Vercob₄C™ tiles is backed by a soft ballistic fabric: It molds snugly to the body, moving with the wearer, yielding unrestricted movement and *comfort*. Verco's custom-made carriers can accommodate this enhanced-coverage panel.

Ballistic panels are encased in water-tight nylon covers. Dimensions are ± 0.25 ". Panel thickness is 1.2".
